

(PCT Article 18 and Rules 43 and 44)

International application No.	Applicant's or agent's file reference  Architect Gen		of Transmittal of International Search Report 120) as well as, where applicable, item 5 below.
Applicant  CRITICAL BLUE LTD  This international Search Report has been prepared by this international Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the international Bureau.  This infernational Search Report consists of a total of	International application No.	International filing date (day/month/year)	(Earliest) Priority Date (day/month/year)
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.	PCT/GB 03/02784	30/06/2003	28/06/2002
This international Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	Applicant		
according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	CRITICAL BLUE LTD		
It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.    the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).    With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:   contained in the International application in written form.   filled together with the international application in computer readable form.   furnished subsequently to this Authority in computer readable form.   the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filled has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   With regard to the title,   X			hority and is transmitted to the applicant
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence lesiting:  contained in the international application in written form.  filled together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filled has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  Unity of invention is lacking (see Box II).  With regard to the title,  the text is approved as submitted by the applicant.  the text has been established according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  8. The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  because the applicant falled to suggest a figure.	· — ·		report.
the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  lilled together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  4. With regard to the title,  X the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  with the text has been established by the applicant.  the text has been established of according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority, within one month from the date of mailing of this international search report, submit comments to this Authority, as suggested by the applicant.	Basis of the report		
Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the International application in written form.  filled together with the international application in computer readable form.  furnished subsequently to this Authority in written form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box II).  Unity of invention is lacking (see Box II).  4. With regard to the title,  X the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  X the text is approved as submitted by the applicant.  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  6. The figure of the drawings to be published with the abstract is Figure No.  X as suggested by the applicant.  because the applicant falled to suggest a figure.			sis of the international application in the
was carried out on the basis of the sequence listing:  contained in the International application in written form.  filled together with the international application in computer readable form.  furnished subsequently to this Authority in written form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  Unity of invention is lacking (see Box II).  With regard to the title,  X the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  within one month from the date of mailing of this international search report, submit comments to this Authority.  6. The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  because the applicant falled to suggest a figure.		vas carried out on the basis of a translation of t	he international application furnished to this
